

To Whom It May Concern,

I have worked with Mattinson Partnership for more than 4 years and I currently work for the Talent Acquisition Team for Arcadis. Mattinson Partnership have assisted me with hiring professionals within the Infrastructure, Utilities and Environment Sectors enabling us to grow our Design and Consultancy capabilities UK wide.

I have found them invaluable in placing professionals throughout many of areas of interest, they understand their clients' needs and are able to react and flex to our reactive and proactive requirements.

They are always professional in their approach and ensure that the candidates meet our recruiting requirements in terms of knowledge, experience, qualifications and availability. They hold very high ethical standards and are a go to supplier.

Regards,

*Danny*
